SECURITY TECHNOLOGY — YEARLY AUDIT 2026

Security Systems Technology · All properties

Prepared by Security Technology Manager · 11/3/2026 · 10:08:02 PM

This audit covers everything the Security Systems Technology team tracks: every Code Green emergency fob and beacon, who last battery-tested each fob and beacon, the daily property inspection log, and every technician service visit logged for 2026.

Next yearly audit: Tuesday, January 5, 2027.

AUDIT SUMMARY — ALL PROPERTIES

One row per property. The detail for each property follows below the summary. Fob cost counts broken fobs only, at $181 each — brand-new replacement stock is not charged. Broken counts include fobs discarded during the year (kept on file in the Trash), so the year's broken cost is complete.
